Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 14-27 rejected under 35 U.S.C. 102(e) as being anticipated by US Patent NO.6117086 to Shulze.

Shulze teaches a tube for retaining fluid, the tube includes an outer wall a lateral access a dome portion , including a sealing surface on the outside wall of the tube surrounding the lateral access opening, and a sensor sealingly disposed on the sealing surface surrounding the lateral access in the tube. (figure 1-2, 5-6)

Response to Arguments

Applicant's arguments filed 12/13/2004 have been fully considered but they are not persuasive. Applicant has alleged that patent no. 6361206 does not read on the claims, however the last office action used Shulze (US Patent No. 6117086) as prior art rejection and not patent NO. 6361206. As the examiner explained to the applicant on the phone, Shulze does teach a dome shaped figure as the definition of dome in the Webster's Dictionary is a structure that resembled a dome or an upward selling which

Shulze clearly demonstrated in figures 1-2 and 5-6). Since the applicant has not objected to the Shulze, Shulze is now considered admitted prior art.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
